Inventory

Review sellable rooms alongside reservations and room status.

Rates & stay plans

Manage date-based rates, channel formulas, overnight and day-use plans.

Control & history

Map room types and rate plans, inspect update logs and resync when needed.

CONFIGURE. REVIEW. RESYNC.

Understand how your channels are connected.

Keep room mapping, calculation logic and update history visible to your operations team.

01

Map the products

Align hotel room types and rate plans with the products sold on each connected channel.

02

Review the basis

See inventory calculations in the context of reservations and room status.

03

Trace the updates

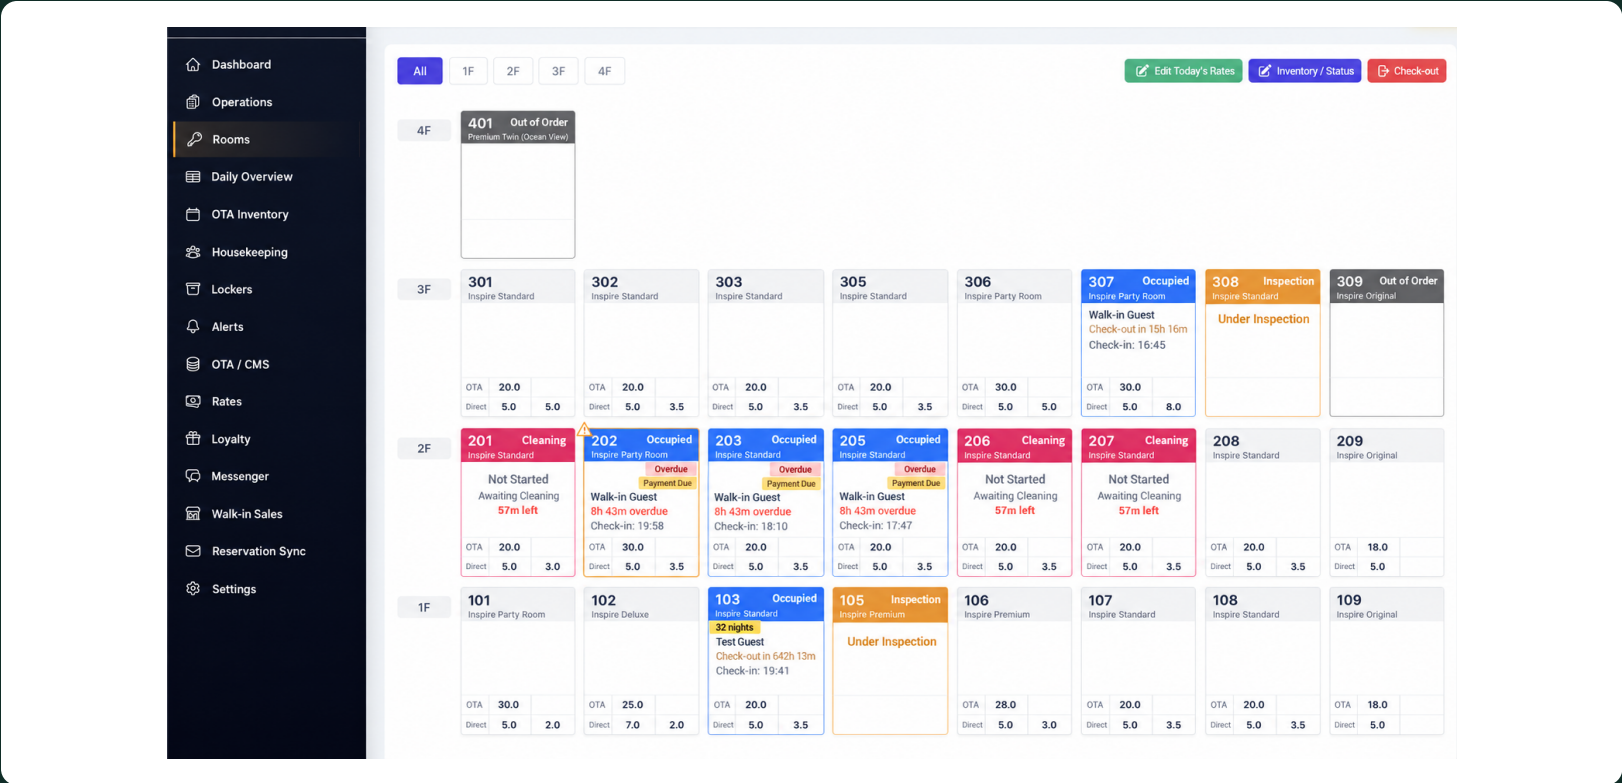

Review OTA update logs, investigate discrepancies and resync when needed.

Channel activation includes the property's OTA authorization and room/rate-plan mapping.

PROPERTY MANAGEMENT

Run daily hotel operations in English.

Reservations, room allocation, check-in, check-out and housekeeping in one hotel operations platform.

Reservations

Review bookings and prepare for arrivals.

Room management

See occupancy, availability and rooms requiring attention.

Daily coordination

Connect front-desk activity with housekeeping and guest assistance.

EXTEND THE EXPERIENCE

Connect distribution to the guest arrival.

Add the hardware, applications and guest assistance your hotel needs.

Premium kiosks

Self-service check-in, supported payment and room-key collection.

Live voice & video

Help guests through a direct conversation when assistance is needed.

Real-time translation

Support international guests across language barriers.

Administrator app

Keep managers connected to the operating and support workflow.

English PMS, international equipment delivery and country-specific development support Singapore projects.

YOUR SINGAPORE DEPLOYMENT

Let's design your next hotel operation.

See an English PMS demo, discuss your channel mix and plan a kiosk setup for your property.
