PRODUCT & SOLUTIONS GUIDE

Explore the platform: seulnang.co.kr/en

THREE REASONS TO CHOOSE US

Connect your sales. Upgrade the arrival. Keep people within reach.

01

Global channel reach

Global OTA integration and support for four Korean OTAs, linked with hotel operations.

02

Premium lobby hardware

A large freestanding kiosk brings check-in, payment and room-key collection into one place.

03

Human help, across languages

Live voice and video calls, real-time translation and an administrator app support guest assistance.

THE OPERATING MODEL

One platform. Every part of the stay.

Bring distribution, front-desk work and guest assistance into one operating flow.

01
CMS
Channels & rates

02
PMS
Rooms & reservations

03
KIOSK
Check-in & room keys

04
SUPPORT
Voice, video & translation

ADMINISTRATOR APP

Keep hotel managers connected to guest assistance and daily operations.

A connected workflow helps teams see what is happening, coordinate the next action and assist the guest.

THE LOBBY EXPERIENCE

A premium check-in destination.

01 **Self-service arrival**

Guide booked and walk-in guests through the check-in journey.

02 **Payment & room keys**

Bring supported payment and room-key dispensing into one unit.

03 **Help when it matters**

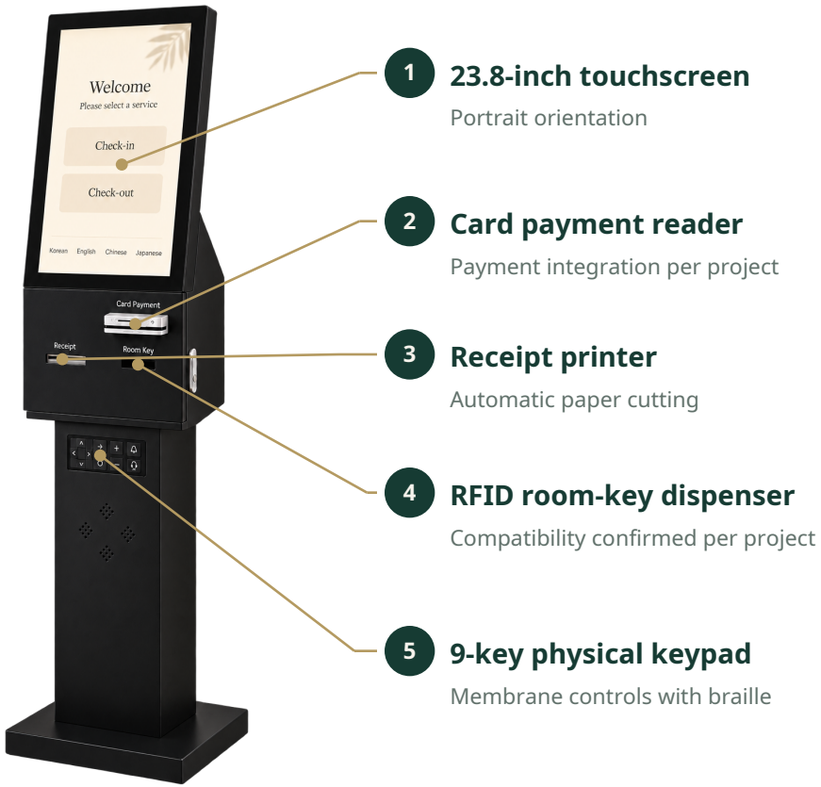

Connect guests to live voice and video assistance when they need support.

Product rendering. Payment devices, room-key integration and production configuration are specified in the quotation.

DESIGNED FOR SELF-SERVICE

Every touchpoint, within reach.

Core hardware for check-in, payment, room keys and guest assistance.

1. **23.8-inch touchscreen**
   Portrait orientation
2. **Card payment reader**
   Payment integration per project
3. **Receipt printer**
   Automatic paper cutting
4. **RFID room-key dispenser**
   Compatibility confirmed per project
5. **9-key physical keypad**
   Membrane controls with braille

Product rendering; callouts are indicative.

CORE SPECIFICATION

Display	23.8-inch portrait touchscreen
Guest assistance	Full HD camera, speaker & microphone
Computing	Integrated industrial PC
Controls	Touchscreen + physical keypad
Room keys	RFID card dispensing

REFERENCE CABINET DIMENSIONS

400 × 300 × 1,579 mm

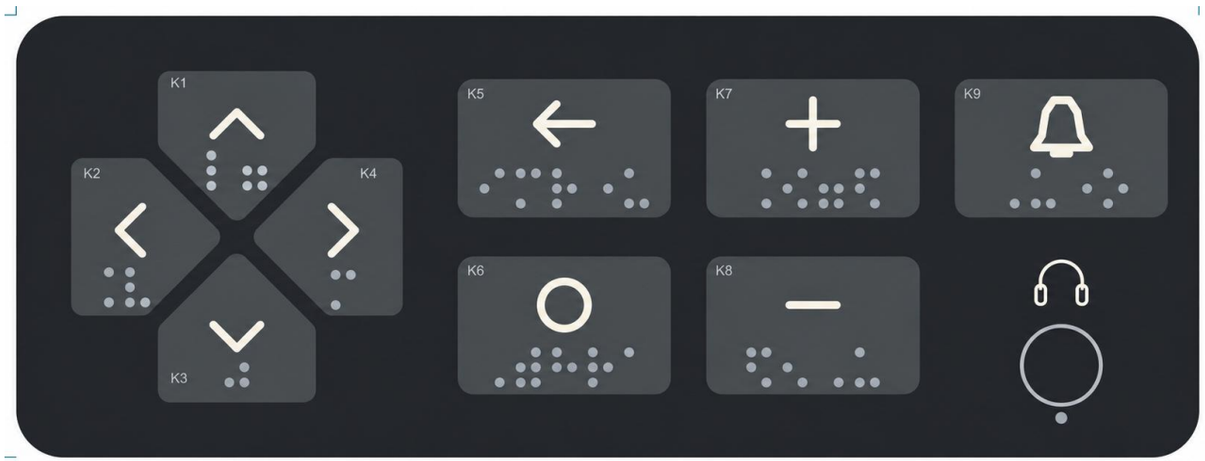

Width × depth × height

Existing design / RFQ reference, rounded height.

THOUGHTFUL PHYSICAL CONTROLS

Touchscreen choice. Tactile control.

A dedicated lower control area complements the touchscreen and supports the guest journey.

9-KEY MEMBRANE KEYPAD

Physical keys with braille markings.

Designed into the kiosk

The current design uses a single 9-key membrane module for the lower physical controls.

Adapted to your market

Agree local accessibility requirements, language, implementation scope and validation as part of the Singapore deployment.

BANKNOTE ACCEPTANCE & DISPENSING

Cash handling. In its own module.

A separate product for banknote acceptance and dispensing, specified around your hotel’s payment setup.

Independent cash-handling product

Accept banknotes

A dedicated inlet for supported banknotes.

Dispense banknotes

A collection outlet for banknote dispensing.

PRODUCT DIMENSIONS

350 × 450 × 400 mm

Width × depth × height | 35 × 45 × 40 cm

Currency, denominations and payment integration are confirmed for each deployment.

AMENITY STORAGE LOCKER

A dedicated place for hotel essentials.

A separate storage module for amenities and supplies, with a compact 350 mm-wide cabinet.

Organise guest supplies

Keep amenity items in a dedicated cabinet that suits the hotel’s guest-service setup.

Choose it independently

Specify the storage product separately from the kiosk and cash module.

PRODUCT DIMENSIONS

350 × 450 × 1,000 mm

Width × depth × height | 35 × 45 × 100 cm

Layout and access configuration are agreed per project.

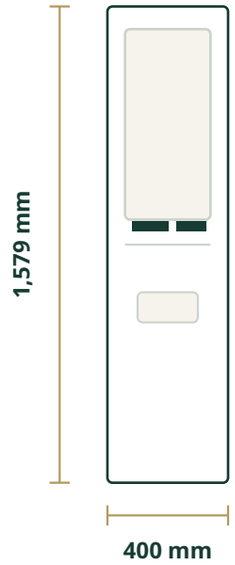

Five-compartment rendering based on the supplied image. Cabinet dimensions are specified; final compartment and access details are quoted per project.

PLAN YOUR SPACE

Three products. One clear size guide.

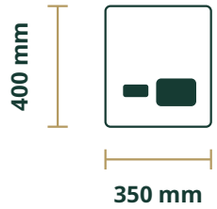

Select the kiosk, cash module and amenity locker to match the property.

PREMIUM KIOSK

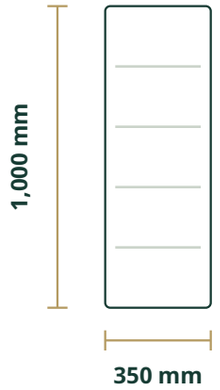

W 400 × D 300 × H 1,579 mm

CASH MODULE

W 350 × D 450 × H 400 mm

AMENITY LOCKER

W 350 × D 450 × H 1,000 mm

Front-elevation diagrams use the same scale. Depth is listed in each specification.

Kiosk: reference cabinet size, rounded height. Modules: supplied product dimensions. Allow additional clearance for access, cables and servicing.

A HUMAN CONNECTION

See the guest. Hear the question. Help in the moment.

Live voice & video

Talk with guests directly during check-in and when questions arise.

Real-time translation

Support conversations with international guests across language barriers.

Hotel-specific response

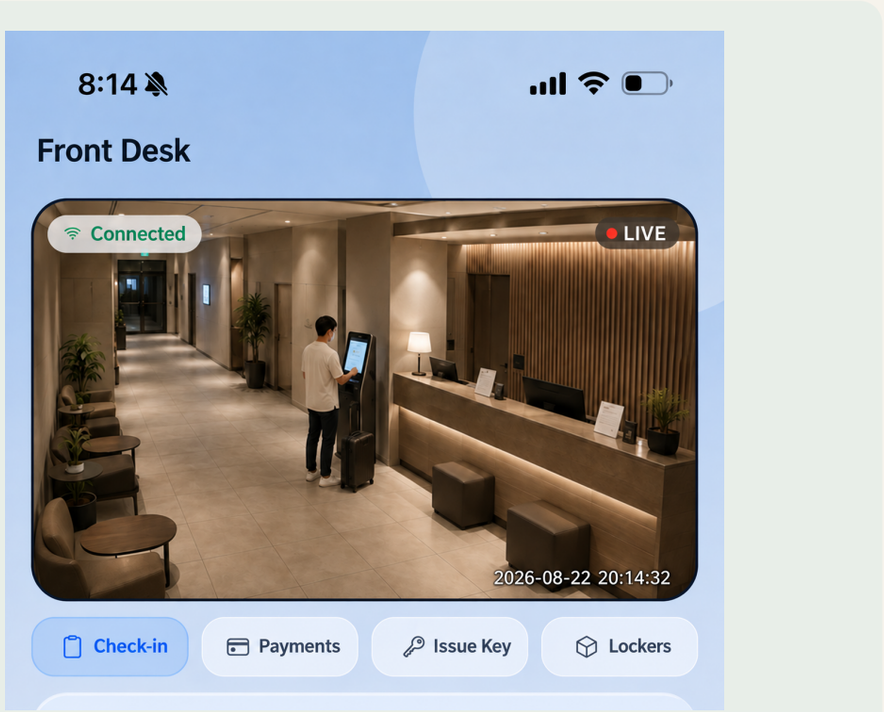

Use the property's operating guidance and involve the local team when needed.

Remote support illustration. Support hours, languages and service scope are agreed for each property.

MANAGEMENT, WITH YOU

Keep the hotel within reach.

An administrator application connects managers to the guest-support workflow.

Stay connected

Follow the guest-assistance context from the administrator app.

Voice & video interaction

The platform connects the kiosk, remote assistance and management.

Coordinate the next step

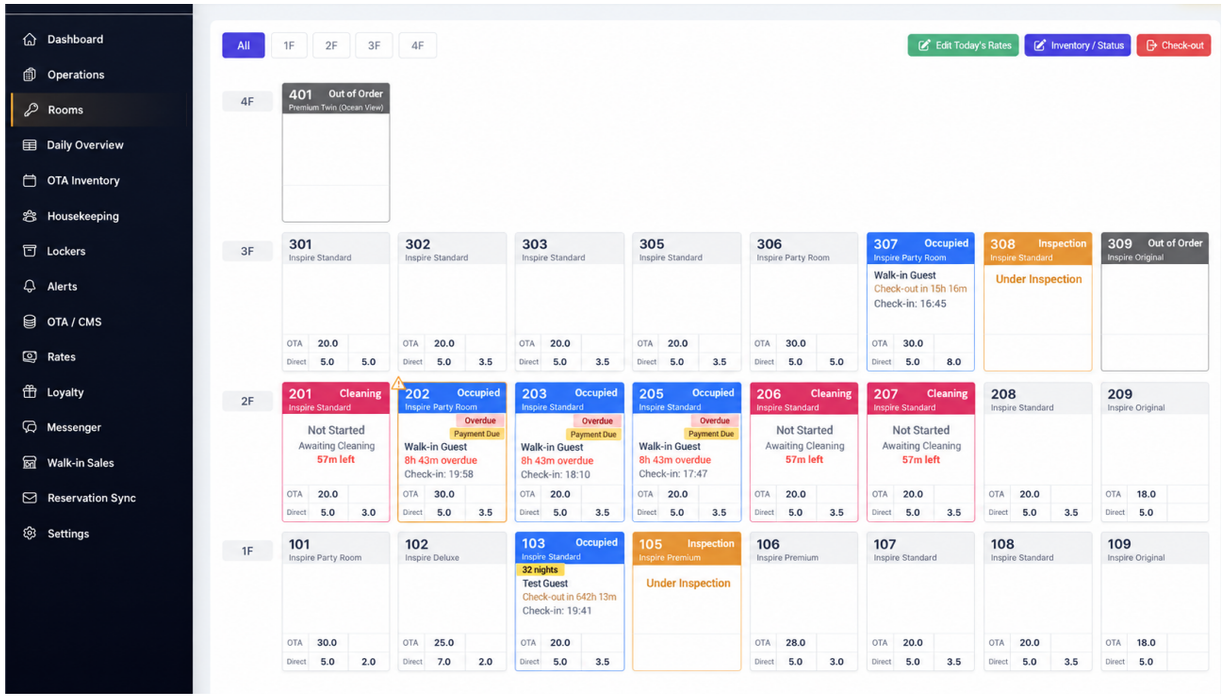

Bring the manager into the operational workflow when help is needed.

English administrator app preview. Illustrative interface; guest records are omitted.

PROPERTY MANAGEMENT

Run daily hotel operations in English.

Reservations, room allocation, check-in, check-out and housekeeping in one hotel operations platform.

Reservations

Review bookings and prepare for arrivals.

Room management

See occupancy, availability and rooms requiring attention.

Daily coordination

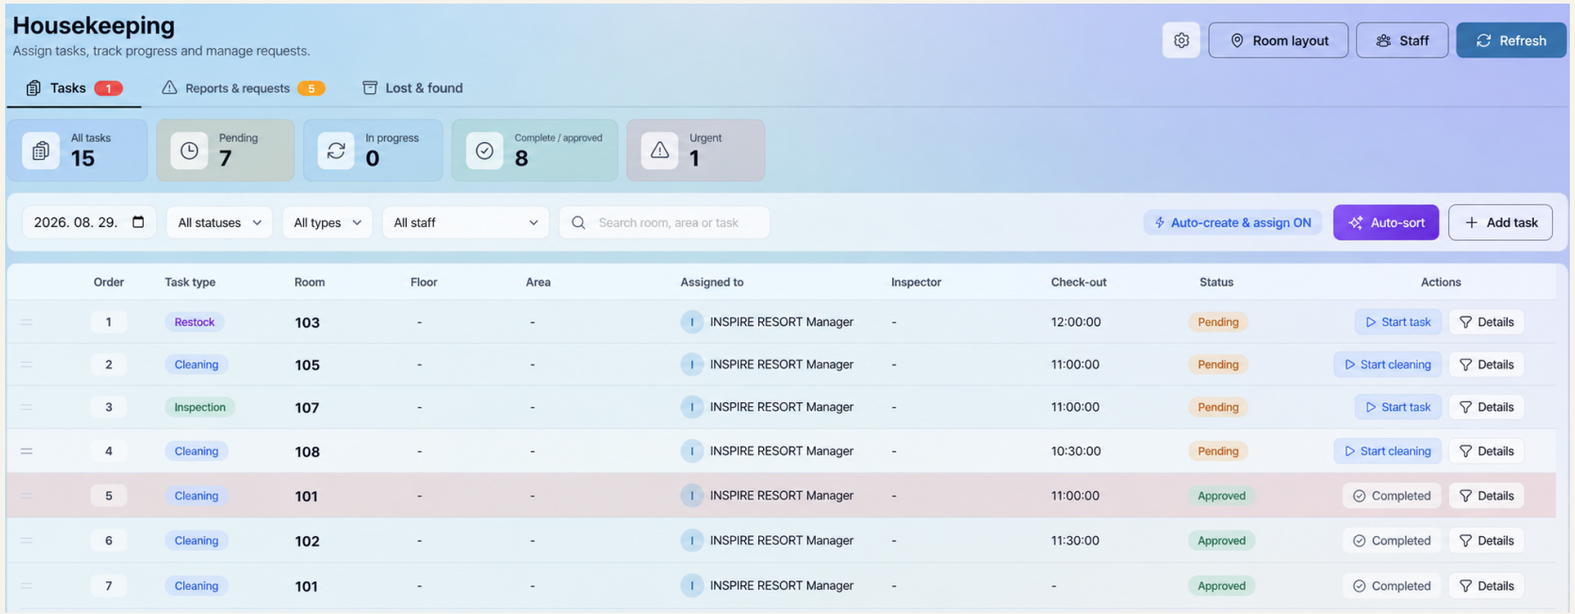

Connect front-desk activity with housekeeping and guest assistance.

English PMS interface preview. Illustrative sample data; configuration varies by property.

FROM CHECK-OUT TO READY

Coordinate room readiness across the team.

Connect room status, housekeeping assignments and completion checks.

01 Assign tasks

02 Track progress

03 Review completion

04 Handle requests

GLOBAL DISTRIBUTION

International reach. Korean channel support.

Global OTA integration, plus four Korean OTAs.

GLOBAL OTA INTEGRATION

Connect the channels your hotel sells on.

- Booking.com
- Expedia
- Agoda
- Airbnb
- Trip.com
- Hotelbeds

4

Korean OTAs

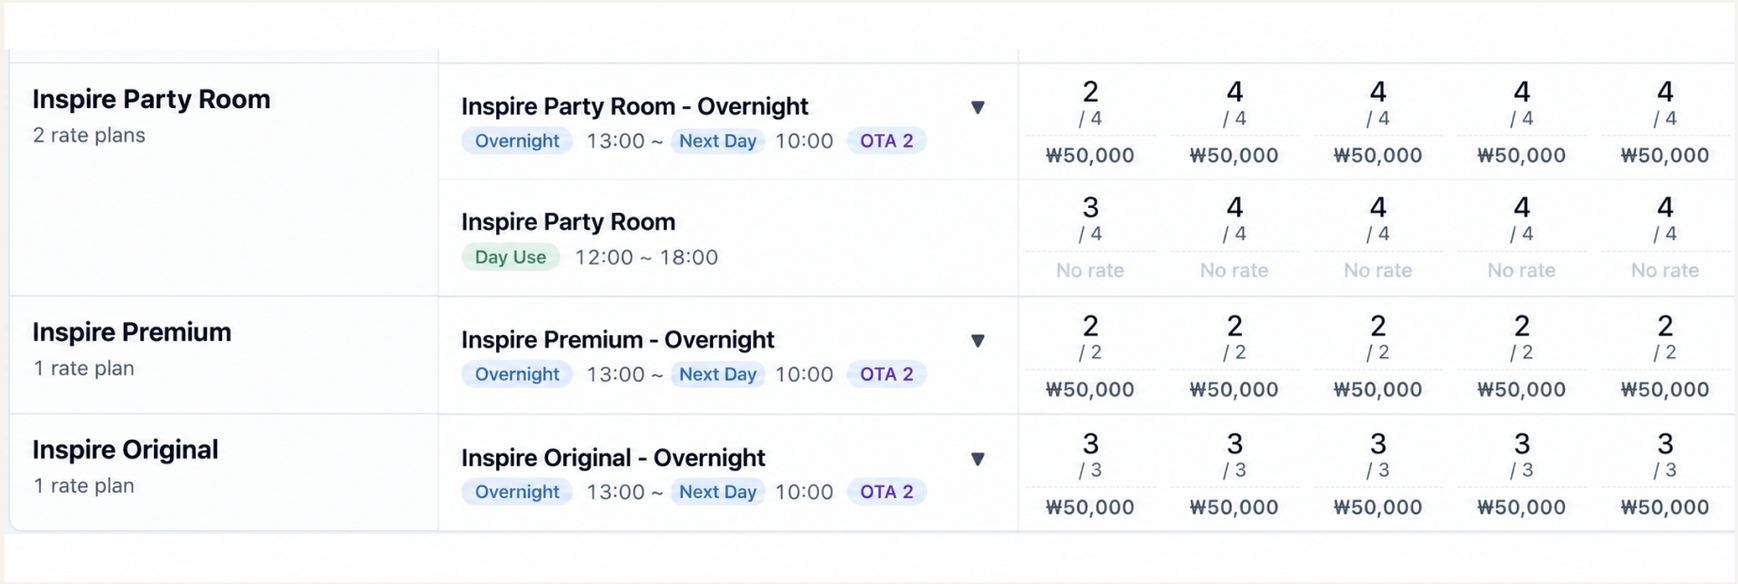

Domestic connectivity alongside your international channels.

Discuss your OTA integrations

Example channels shown. Availability, activation and supported functions vary by channel and property setup.

CONTROL YOUR SALES

Manage availability with the room operation in view.

Inspire Party Room 2 rate plans	**Inspire Party Room - Overnight** Overnight 13:00 ~ Next Day 10:00 OTA 2	2 / 4 ₩50,000	4 / 4 ₩50,000	4 / 4 ₩50,000	4 / 4 ₩50,000	4 / 4 ₩50,000
	Inspire Party Room Day Use 12:00 ~ 18:00	3 / 4 No rate	4 / 4 No rate	4 / 4 No rate	4 / 4 No rate	4 / 4 No rate
Inspire Premium 1 rate plan	**Inspire Premium - Overnight** Overnight 13:00 ~ Next Day 10:00 OTA 2	2 / 2 ₩50,000	2 / 2 ₩50,000	2 / 2 ₩50,000	2 / 2 ₩50,000	2 / 2 ₩50,000

Inventory

Review sellable rooms alongside reservations and room status.

Rates & stay plans

Manage date-based rates, channel formulas, overnight and day-use plans.

Control & history

Map room types and rate plans, inspect update logs and resync when needed.

English CMS interface preview; illustrative sample data. Channel capabilities and update timing vary.

A FORMAT FOR YOUR SPACE

Choose the right point of arrival.

Compact countertop

Tablet and compact key dispenser for an existing reception counter.

Premium freestanding

Large-screen lobby kiosk with payment, key dispensing and lower physical keypad.

English interface previews. Payment, room-key compatibility and options depend on the selected configuration.

BUILT FOR YOUR MARKET

From Korea to your hotel in Singapore.

International courier delivery, English PMS and country-specific development support your rollout.

01 Define the setup

Hotel size, guest flow, room keys, payment methods and sales channels.

02 Adapt to the market

Local workflows, language, accessibility and regulatory requirements.

03 Ship the equipment

Arrange international courier delivery and confirm freight, import and installation scope.

04 Connect & validate

Configure the agreed systems and check the guest journey before launch.

A CLEAR STARTING POINT
